

HydraFacial™ GlySal™ Acid Peel

FEATURES:

- ▶ Combines chemical and physical peeling in a single procedure
- ▶ Simultaneous cleansing, exfoliation, peeling and hydration
- ▶ Softens sebum & impurities and planes away dead skin cells while peeling
- ▶ Next generation AHA's - blend of Glycolic, Lactic and Salicylic Acids
- ▶ Unique combination of hydration with peel
- ▶ Choice of various acid strengths for most skin types
- ▶ Controlled, uniform acid application in a convenient, pre-measured vial
- ▶ pH balanced

BENEFITS:

- ▶ Reduced or eliminated post-peel scaling
- ▶ Little to no downtime; minimal irritation or stinging
- ▶ Minimizes visible imperfections within minutes
- ▶ Immediate skin radiance
- ▶ Unlike traditional acid peels, less labor, time and fewer products are involved
- ▶ May be used on most skin types, including thin, fragile skin
- ▶ Targets fine lines, hyperpigmentation, oily or acne skin
